Dear Mayor, Vice-Mayor, and City Councillors,

I have lived in Cambridge for the past 5 years, and I have been proud to say I live in a city that fights for the safety and rights of immigrants and incarcerated people, and tries to be ethically responsible to the greater communities, cities, and countries.

I would like to urge you to hear what Massachusetts Against Hewlett Packard has to say about where Cambridge can, and should, lie on engaging in contracts with HP. Cambridge is a nationally renown city, and we must show what it means to have a conscious and lead the way.

Best,

Hailey Alm
